support

WHERE YOU NEED IT MOST

Did you know that 50% of your body weight rests in the middle of your mattress while you sleep?

Our exclusive technique reinforces the centre third of the mattress to provide extra support for your back and core.

Only Sealy[®] has Posturepedic[®] support for your back and core. It's targeted to the individual areas of your body that need it most so your body stays level while you sleep.

Built to deliver middle-of-the-mattress support and pressure relief—for truly best-of-the-best sleep.

EVERBLOOMING TT

POSTUREPEDIC® HYBRID 800 SERIES

CertiPUR-US® Certified SealySupport™ Gel HD Foam

Cushioning gel infused foam that's pre-compressed for consistent, long-lasting comfort and support.

Hybrid Coil

Micro coil performance core that bends and flexes for a supportive, personalized feel where you need it most.

HybridEdge™

A reinforced foam and coil border increase the sleeping surface and provides a flexible seating edge.

Targeted Gel HD Foam

High density gel foam stacked directly under your back and core, to ensure your body stays properly supported while you sleep.
