DETAILS AND OVERVIEW

Solid wood frames with hardwood laminates and particle boards on non-stress areas. Engineered for maximum strength and durability.

Outside arms and backs are fully reinforced with fiberboard and covered in a custom-fit foam padding. This prevents the fabric or leather covering from stretching and sagging and guarantees a luxurious appearance for years to come.

Spring suspension: heavy duty, sinuous tempered steel wire seat suspension for long-lasting comfort and maximum durability.

Fixed seat made of HR foam provides exceptional support; wrapped in plush fiberfill for added cushioning.

Fixed back made of a soft HR foam to for a comfortable and supportive surface to sit or lean against. The foam is both firm enough to provide support and soft enough to contour to the body's curves, creating a comfortable seating experience. The cushion is also wrapped in high-quality fiberfill, adding an extra layer of plush comfort to the surface.

Every module is fully upholstered and can be easily detached, allowing for freestanding placement or rearrangement of the sofa configuration.

Legs style (1"):
[P-1] plastic dobs (black).
